

Our Lady of Peace Catholic Primary and Nursery School

Year 3 2023 - 2024

Term: Autumn 2

Homework Booklet

Welcome to your homework booklet for this half term.

Spellings

In this booklet you will find six weeks' worth of spellings. You need to learn these spellings carefully by using the look, say, cover and write method. You then have some space at the bottom of the page to put each of your spelling words into a sentence.

Your teacher will test you on your spellings each week on Friday

Login to your **Times Tables Rock Stars** account to practise your times tables! You need to complete a 20-minute task each week by Friday at 8:00 a.m. You may choose to complete it all at once or spread it out over several days. Your teacher will test you on your times tables each week on Friday

Brain Builder Homework

Get ready to uncover the hidden stories of our planet! This term, we'll be exploring the amazing world of rocks, soils, and fossils — discovering how they're formed, what they're made of, and how humans use them every day.

Your task is to compare two or three different types of rocks. Find out what makes the — their appearance, texture, hardness, and usefulness in today's world. Think about where we might see them in buildings, art, or nature!

You can show your learning in any creative way you choose! Here are some ideas to get you started:

- Design a Poster – Use drawings, labels, and fun facts to highlight similarities and differences.
- Create an Information Booklet or Mini Magazine – Include fascinating facts, diagrams, and real-world examples.
- Make a Short Video or Documentary – Act as a geologist or news reporter explaining your discoveries.
- Build a 3D Model or Diorama – Show how rocks form or where they can be found in nature.
- Write a Creative Story or Comic – Imagine rocks coming to life to tell their own stories!
- Design a Digital Presentation or Infographic – Use technology to present your information in a modern, eye-catching way.

Maths for Autumn 2

Addition and Subtraction

Add and subtract numbers mentally, including: a three-digit number and ones; a three-digit number and tens; a three digit number and hundreds.

Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction. Estimate the answer to a calculation and use inverse operations to check answers.

Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.

Multiplication and Division

Count from 0 in multiples of 4, 8, 50 and 100. Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables. Write and calculate mathematical statements for multiplication and division using the multiplication tables they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods.

Solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems.
