Newsletter—Friday 23rd May

Volume 30

Dear Parents,

Hoping you have all had a good week.

We started the week in school with our Marian Mass. Fr Anthony led Mass with the children and the Year 3 children who have received their First Holy Communion this year led the service. The children read beautifully and clearly. Well done!

I was really pleased to see all of the flowers that the children brought into school to present to Mary. After Mass, we were able to extend the love that God shows us by donating many flowers to the care home in Burnham. The residents were overjoyed to see the flowers around the care home.

Yesterday we were joined by Florence and Zeena from the OLOP Parish who came and prayed the Rosary with Year 4 and 5 pupils. We extend our thanks to Florence and Zeena for coming and praying this special prayer with the children.

Hopefully you will have seen my letter from earlier this week detailing the end of academic year date. I forgot to add in my letter that we will have a full day on the 18th July and school will close at the normal time of 3:25pm for Lower School and 3:30pm for Upper School.

You will have also received a letter from Debbie Main, Chair of the IEB. We are now looking to create the new Governing Body and there are various roles within the board to fill. If you would be interested in becoming a Governor at Our Lady of Peace, please send an email to the school office and Debbie Main will be in contact.

Just a reminder that it is an INSET day on Monday 2nd June. We look forward to seeing all of the children back on Tuesday 3rd June.

Wishing you all a very happy half term break.

Best wishes,

Mr Stopps

My Active Calendar

It is always important to keep fit and healthy (and have fun doing it!)

Here is your very own Get Set 4 PE Active Calendar. Your challenge is to complete an active game every weekday throughout December.

Follow these steps to help you:

- Go to www.getset4education.co.uk and click on the Home Learning tab to see the Active Families Games.
- Pick an active game and play it.
- Write the name of the game you played onto your active calendar and enter a symbol to show how it made you feel. Remember, some days you may not enjoy a game but then love it on another day. Give games a go more than once.

WAKE UP WEDNESDAY

With around 70% of teens reporting they've seen violent real-life content on social media in the past year, this guide shines a light on a disturbing – and increasingly common – aspect of young people's digital lives. From shocking videos to hate speech, many children don't go looking for this material, it finds them via algorithms or peer sharing.

The guide outlines key concerns, including the mental toll of repeated exposure, shifts in behaviour, and the worrying normalisation of harmful ideologies. It also explains how such content can escalate from screen to street, and why some young people may feel pressured to share or even create violent media themselves.

At The National College, our WakeUpWednesday guides empower and equip parents, carers and educators with the confidence and practical skills to be able to have informed and age-appropriate conversations with children about online safety, mental health and wellbeing, and climate change. Formerly delivered by National Online Safety, these guides now address wider topics and themes. For further guides, hints and tips, please visit nationalcollege.com.

What Parents & Educators Need to Know about MINECRAFT

Still the best-selling game of all time, Minecraft is a bastion of creativity and community, with hundreds of millions of players building and crafting in its almost endless world. The popularity of Minecraft among gamers of all ages means it's important to remain informed about the game, including how to play it safely and whether it's suitable for the children in your care. That's why we've created this guide explaining the risks associated with Minecraft and how to ensure a purely enjoyable gaming experience.

AGE RESTRICTION
PEGI 7

WHAT ARE THE RISKS?

SCARY ELEMENTS

While Minecraft can be seen as a kind of 'digital LEGO', certain game modes include creatures accompanied by eerie sound effects. These can be a bit too frightening for some younger players, potentially leading to distressing in-game combat and other encounters – although the combat is quite basic and free from any real depiction of violence.

GRIEFING

Some players in Minecraft take pleasure in deliberately damaging or destroying another person's creations. This behaviour, known as 'griefing', is a form of bullying – it intentionally ruins someone else's experience by erasing hours of their work and forcing them to start over. Many public servers regard griefing as a serious offence and often ban those who engage in it.

ADDICTIVENESS

Minecraft's focus on creativity means that, as with any creative endeavour, it can be easy to get carried away. If your child is finding it difficult to manage their time because they're drawn in by Minecraft's gameplay loop of resource gathering and building elaborate projects, it could have a knock-on effect on their social interactions and schoolwork.

PUBLIC SERVERS AND COMMUNICATIONS

With public servers being so easily accessible in Minecraft, it's highly likely that children will end up chatting with strangers through the in-game text chat. Some servers even place an emphasis on social interaction, actively encouraging communication between players. While there's nothing inherently wrong with this, it does carry certain risks. In addition to the concerns around speaking with strangers online, players who host their own servers may have their IP addresses exposed, posing a further security concern.

ADDITIONAL PURCHASES

Minecraft is available as a free trial on a variety of devices; however, the full game requires a one-off purchase. After that, players have the option to buy additional cosmetic upgrades or subscribe to Minecraft Realms. Realms is an entirely optional subscription service that allows users to run their own private server to play with friends. Without proper supervision, younger players may end up making unintended or excessive purchases.

Advice for Parents & Educators

CHOOSE THE RIGHT MODE

Selecting Creative or Peaceful mode allows children to play Minecraft without having to contend with enemies. It's also a great way for you to get used to playing the game with them, since the difficulty level is far lower. This allows you to work together on a long-term project, creating something special without the threat of enemies and creatures attacking you or damaging your building.

HOST A PRIVATE SERVER

The easiest way to find a safe server for children to play on is to make one yourself. Hosting a server prevents strangers from finding it, unless they've been given its address and password. A private server also lets you control who's allowed to enter and – if necessary – ban anyone who shouldn't be there. This is the closest equivalent to parental controls in Minecraft. Hosting a private server, however, will cost a monthly fee.

TALK ABOUT STRANGERS

At some point in their lives, almost everyone will make contact with a stranger online. Talking to children about online safety, therefore, is essential – as is having a plan for dealing with any hostile or difficult people. It's important that a child knows never to tell a stranger about themselves online and that they should come to you straight away if they do encounter a problem.

RESEARCH CONTENT CREATORS

Much of Minecraft's early stages can be an exercise in frustration for players who don't know where to start. Thankfully, there's a wealth of material online and in video format to help you learn the basics. Just be mindful that some of this content may not be appropriate for children, so you should consider watching it yourself first.

PLAY MINECRAFT WITH YOUR CHILD

As a creative building tool, Minecraft makes it great fun for children to team up and construct vast buildings accompanied by imaginative landscapes, much like working with LEGO or model kits. Playing in a game mode that includes enemies can encourage critical thinking and teamwork; however, you should consider which game mode is appropriate for the child in your care.

As well as the music we'll still have bouncy castles, penalty shoot-out and the splash zone as well as food, drink and festival-themed stalls. As always what we are able to offer is entirely dependent on the number of volunteers we have to help - and in order to be able to run large events like this, we need a LOT of volunteer help! Even if you don't have time to come to meetings or be involved in any planning, if you can spare an hour or two to help on the day it makes a huge difference to what we are able to do!

If you can help during OLOPFest please sign up using this link and we'll be in touch. <https://volunteersignup.org/37XAA>

If you can help, but can't do the full 2.5 shift on the sign-up sheet, please do put your name down and just let us know when you are available. Thank you!

NOVENA TO OUR LADY OF PERPETUAL HELP 26th MAY – 3rd JUNE 2025: The month of May is traditionally dedicated to Our Lady in the Catholic Church—a time when we renew our love and reverence for the Blessed Virgin Mary. As a parish, we seek to conclude this special month in prayer, turning to our Blessed Mother under her title of Our Lady of Perpetual Help, imploring her powerful intercession and maternal protection. We warmly invite all parishioners to join in a **nine-day novena** from **Monday 26th May to Tuesday 3rd June**, which will be prayed at the end of Mass each day.

Most parishioners already have copies of the novena booklets. If you require one, please speak to **Edward Agbaje** or **Venecia**, our parish secretary, who will be happy to assist you.

Let us gather in hope and devotion as we entrust our lives, families, and parish community to the care of our loving Mother.
