Newsletter—Friday 11th October

Volume 5

Dear Parents,

Hoping you've all had a good week.

Firstly, I'm very pleased to share the news that we have a very special new member of the school community. Mrs Bainbridge left at the end of September to begin her maternity leave. I can announce that baby Alice Bainbridge has arrived and both baby and mother are doing well. We send our congratulations to the Bainbridge family!

Today Mrs Woods and I have accompanied the Mission Team to the Northampton Diocese School's Mass at St Mary's Church in Dunstable. It was a truly lovely Mass which Bishop David led. During the service he commissioned the Mission Team for this academic year, asking them to be leaders and active members of the school community, working together to achieve the mission of the Church. We look forward to this year ahead and what the Mission Team will be focussing their efforts on this year. Well done to Shai, Amber, Shanaya, Darcey, Fionn, Niamh, Precious, Mishka, Cara, Mohammed and Amelzona for forming the team. They will be working closely with Mrs Koeberg and Mrs Arampatzi this year.

To end my note in the newsletter, Bishop David also gave a message for us all, 'I hope that all members of your school and parish community will grow to appreciate the importance of 'listening,' 'being' and 'doing' so that each one develops a real and loving personal relationship with Jesus Christ and can hear his unique calling to each one of them.'

Wishing you all a happy and restful weekend!

Best wishes,

Mr N Stopps

GIRLS FOOTBALL

Some members of this years Our Lady of Peace Year 5/6 Girls football team were lucky enough to be able to attend a Girls football festival at Arbor Park, home of Slough Town, last week. The rain held off and allowed the girls to take part in a variety of training drills and fun practices before playing some mini-matches against other local schools. The girls all had a great time showing off their skills and were magnificent ambassadors for the school!

FENCING

Some of the Year 1 and Year 2 pupils were lucky enough to attend the Slough Schools fencing festival at Singh Sabha. The children played a number of games to learn the proper stance and how to move about. They learnt a lunging technique to score points against an opponent. Once the games had finished the children had the opportunity to practise what they learnt, safely on each other. The children had protective head gear and a foam sword to play mini competitions to see who was a master fencer.

The children had a great time learning different skills and engaging in a new sport.

WAKE UP WEDNESDAY—NATIONAL COLLEGE

A Home Office study has found that approximately 350 children are injured in accidental fires every year. Naturally, this highlights the importance of educating young people on fire safety – ensuring they're aware of what precautions they can take to keep themselves protected around flammable materials and naked flames. It can be difficult to know where to start when teaching children and young people about this potentially life-saving topic. That's why we've put together this free guide, offering expert advice on how to educate those in your care about fire safety. It breaks down the steps you can take to protect youngsters in common situations – from bonfire night to lighting a few scented candles.

At The National College, our WakeUpWednesday guides empower and equip parents, carers and educators with the confidence and practical skills to be able to have informed and age-appropriate conversations with children about online safety, mental health and wellbeing, and climate change. Formerly delivered by National Online Safety, these guides now address wider topics and themes. For further guides, hints and tips, please visit nationalcollege.com.

10 Top Tips for Parents and Educators

TEACHING CHILDREN FIRE SAFETY

Fire safety is especially important around Bonfire Night, as fireworks, bonfires and sparklers add extra risks for families and young children. Every year in the UK, thousands of accidents occur due to improper handling of fireworks and neglecting fire safety measures. This guide offers practical tips for keeping children safe when handling everything from fireworks to space heaters.

- BONFIRE NIGHT AWARENESS**
Bonfire Night is exciting, but it comes with several inherent risks. Educate children about the dangers of fireworks and open flames. Teach them that only adults should handle fireworks and that bonfires should never be approached. Keep children at a safe distance (at least five metres away) from bonfires and explain why supervision is crucial during these events.
- SUPERVISE FIREWORK USE**
Fireworks should only be handled by responsible adults who are following UK laws and guidelines. Make sure to buy fireworks that meet British standards and adhere to all instructions that come with them. Keep children at a safe distance from any firework activity and designate an adult to supervise the event. Ensure no one goes near fireworks after they've been lit.
- SPARKLER SAFETY**
Sparklers are often captivating for little ones, but they can burn at extremely high temperatures – over 1,000 °C! Only allow children over the age of five to use sparklers, and make sure they wear gloves. Teach them to hold sparklers at arm's length and never wave them near others. Once a sparkler has burned out, extinguish it fully in a bucket of water – which you should prepare beforehand and always keep nearby.
- ORGANISED DISPLAYS ARE SAFER**
If possible, families should attend an organised fireworks display rather than holding one at home. These tend to be far safer as they're run by professionals adhering to strict safety regulations. Organised displays also provide a controlled environment where children can enjoy the event from a safe distance, reducing the risk of accidents.
- KEEP FIREWORKS AWAY FROM THE HOME**
If you are hosting your own fireworks display, set them off well away from homes, sheds or fences to avoid starting accidental fires. Choose a wide-open space with no flammable materials nearby and keep a means of putting out fires to hand in case of emergency – such as a bucket of water, a hose or a fire extinguisher. Afterwards, make sure all fireworks are fully extinguished and never attempt to relight ones if it doesn't go off.
- BONFIRE SAFETY**
If you're building a bonfire, place it well away from trees, buildings, fences or anything else flammable. Make sure it's structurally sound and made of old clothing. Only burn natural materials like wood and leaves, avoiding petrol or other accelerants. Children should be kept far away from the bonfire, and it should always be supervised by adults. Be sure to fully extinguish the bonfire before you leave it.
- "STOP, DROP AND ROLL"**
Ensure that children know what to do if their clothing catches fire. Teach them the simple stop, drop and roll technique, which can quickly extinguish flames. Practice this with them before events like Bonfire Night, so they feel confident if the need to use it arises. It can also be helpful to keep another means of putting out these kinds of fires on standby, just in case. An extinguisher or flame-retardant blanket are both sound choices.
- SECURE CANDLES AND OPEN FLAMES**
Beyond Bonfire Night, everyday fire safety is also crucial. Candles can be a common fire hazard, especially in homes with young children. Teach children not to touch any open flames, and ensure candles are placed in sturdy holders away from combustible materials. Never leave candles, incense burners or other such items unattended, and always extinguish them fully before leaving a room or going to bed.
- EDUCATE ABOUT FIREWORKS HAZARDS**
Make sure children understand the dangers of playing with fire or fireworks, and how to handle such things responsibly. Emphasise that fireworks are not toys and can cause serious injuries when improperly used. Demonstrate the importance of treating fire with respect and the consequences of misuse, which can help temper any curiosity and any resultant dangerous behaviour.
- FIRST AID FOR BURNS**
Even if you have the best possible precautions in place, accidents can still happen. Keep a first aid kit on hand. Ensure you know how to apply basic first aid to burns, so you can teach children those techniques too. If someone suffers a burn, run cool water over it for 20-30 minutes. Never use creams or ointments, as these retain heat and can cause further damage. Instead, seek medical help if the burn is serious.
