

**Our Lady of Peace Catholic
Primary and Nursery School**

Year 4

Term: Lenten 2

Homework Booklet

Welcome to your homework booklet for this half term.

Spellings

In this booklet you will find five weeks' worth of spellings. You need to learn these spellings carefully by using the look, say, cover and write method. You then have some space at the bottom of the page to put each of your spelling words into a sentence.

Your teacher will test you on your spellings each week.

Login to your 'Times Tables Rock Stars' account to practice your times tables!

Homework Sessions

Homework will be set each week. Twenty sessions should be completed over 5 days- Friday 3pm to Wednesday 1pm.

BRAIN BUILDERS

Set: Friday 14th February

Due in: Monday 24th March

We would like you to produce some creative work about an artist of your choice. You may already have a favourite artist or you may need to research some artists first.

Tate kids is a great website to explore.

You will need to include some facts about your artist and you could even produce some art work inspired by your chosen artist.

Have Fun!

Maths for Lenten Term 2

Length and Perimeter

Pupils will understand that kilometres are greater than metres and are used to measure greater distances, make links to counting in 1,000s as covered in their earlier learning on place value. Children will explore perimeter further with a focus on rectilinear shapes, calculating the perimeter of rectangles using the side lengths, finding missing side lengths. They will also investigate regular and irregular polygons.

Fractions

Pupils will recognise and show, using diagrams, families of common equivalent fractions. They will count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten. Pupils will solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number. They will add and subtract fractions with the same denominator.

Decimals

Pupils will recognise and write decimal equivalents of any number of tenths or hundredths. They will find the effect of dividing a one or two digit number by 10 or 100, identifying the value of the digits in the answer as ones, tenths and hundredths. They will solve simple measure and money problems involving fractions and decimals to two decimal places. Pupils will convert between different units of measure [for example, kilometre to metre]

Spellings

Week 1

Test 28/02/25

Spelling practice: Look, say, cover, write, check
